

Sixth International Conference
on
**SUSTAINABLE ENERGY
AND
ENVIRONMENTAL CHALLENGES**

Dec 27, 2021 – Dec 29, 2021

Organized by

**International Society for Energy, Environment and
Sustainability**

Email: iseesconference@gmail.com

Website: <http://www.isees.in/>

Facebook Page: <https://www.facebook.com/iseesindia>

Important Dates

First announcement of abstract submission	25.09.2021
Last date of abstract submission	30.11.2021
Author notification of abstract acceptance	Within 10 days of submission/latest by November 20, 2021
Registration begins	01.10.2021
Last date of Registration	30.11.2021

Paper Submission

Sample MS word, PDF and LaTeX files of extended is available on website. The maximum limit for extended abstract is 4 pages. Authors are requested to submit the paper in prescribed format. Selected articles in extended form will be considered for publication in journal titled “Journal of Energy and Environmental Sustainability”, an official publication of the International Society of Energy, environment and Sustainability.

Theme Areas

- Plastics and Polymers
- Future of IC Engine and Technology Roadmap
- Fuels for Sustainable Transport
- Combustion: Emerging Paradigm
- Engine Spray and Combustion: Modelling and Simulation
- Coal Biomass Combustion for Power generation
- Sustainable Energy from Carbon Neutral Sources
- Environmentally Sustainable Technology Landscape
- Water and MSW Remediation for Environmental Preservation
- Biological Waste Treatment
- Bioenergy/Biofuels
- Microbial Processes and Products
- Thermochemical Processes for Biomass

About sixth SEEC

The Conference, 6th SEEC, will be organized to provide research and outreach programme in India and abroad through scientific deliberations like keynote addresses, oral and poster presentations. The 6th SEEC will bring together engineers, scientists, researchers, students, managers, and other professionals in order to address and discuss emerging sustainable energy and environmental issues. It will provide platforms for discussion in key areas of energy and environmental sciences.

This year, we are planning to conduct the conference in a hybrid mode due to ongoing pandemic. Those who want to participate the conference physically have to complete the registration for physical mode. Those who don't want to travel, can participate the conference virtually. For that purpose, they require to complete the registration for online mode.

International Society for Energy, Environment and Sustainability

The International Society for Energy, Environment and Sustainability was founded at IIT Kanpur in January 2014 with an aim to spread knowledge in the fields of Energy, Environment, Sustainability, and Combustion. The Society aims to spread knowledge in the above-mentioned areas among people and make them more aware about the environmental challenges which the world is facing today. The Society is involved in various activities like conducting workshops, seminars, conferences, etc. in the above-mentioned domains. The society also recognizes young scientists and engineers for their contributions in this field. It comprises of experts from leading research institutions working in various domains related to energy.

Registration Fees

- Fee is non-refundable
- Participation certificate will be given only when the delegate attends >75% sessions.
- More details about registration is available on: <http://www.isees.in/VI%20SEEC/Registration.html>
